

Personalised feedback reports empower students

CINERIS REFEREE is a generic web application that enables mentors to store, select and issue personalised advice or feedback to students, in a detailed PDF report.

The easy to use Graphical User Interface enables single-click selection of pre-defined advice and feedback, using easy to follow colour-coding, to give an instant overview of priority information.

Mentors can add ad-hoc comments at any stage.

Each student receives a personalised feedback report.

CINERIS REFEREE is your tool:

- ✓ if you want students to respond to feedback and advice more effectively.
- ✓ if learners forget some of your advice, or need to reflect on it before taking action.
- ✓ if you keep writing the same advice to different students, or you wish to hyperlink them to selected textbook pages, graphics, charts, cases of good & bad practice, etc.

KEY FEATURES of the REFEREE APPLICATION

Generic application

Hosted web-based service; delivers the content you need.

Provides consistent, efficient predefined feedback

Feedback is recognised as a primary educational and mentoring technique.

Manually creating feedback is time-consuming, error prone and can be inconsistent.

Standard feedback can be personalised

The mentor can supplement standard feedback by typing brief comments.

Doubles the throughput of advice per mentor

Reduces the unit cost of mentoring, and increases the scope and depth of the advice provided.

Work-flow guidance

Helps the student grasp priority issues within feedback.

Students take a more mature approach to solving problems

Well presented feedback encourages students to think about their own work, and provides a better chance of identifying their next actions.

What personalised feedback can be supported by Cineris Referee?

In-class assessment; Essays; Presentations; Mentoring; Counselling; Practice Interviews; CVs; Advice to Citizens. Whenever permanent versions of your personalised advice would help students reflect, gain confidence, decide their next actions, and carry them out effectively.
